8/2/93

Dear Kevin,

Although I wrote that it was Chapter 6 that was incomplete I think that may have been a mistake.

Wrone is temporarily confined to bed with a back injury, so I decided to make and send you a copy.

And it then popped into my mind that it was really Chapter 4.

You'll know when you see this if it is Chapter 4, by comparing the two.

If not I sure do hope I made a note on the ms!

Sincerely,

Jacob
